

# Rural Micro Capital Grant Scheme 2022

## Guidance Notes for Applicants

### Overview

This Scheme is funded under the Department of Agriculture, Environment and Rural Affairs Tackling Rural Poverty and Social Isolation Programme. The key aim of this Programme is to assist in tackling poverty and social isolation within rural communities across Northern Ireland, and, in line with the draft Green Growth Strategy for Northern Ireland provide opportunities to implement environmental improvements / energy efficiency measures. More information on the Tackling Rural Poverty and Social Isolation Framework is provided at Annex 3.

For the **Mid Ulster District Council area**, **CWSAN** and **COSTA** are delivering this Scheme on behalf of the **Department of Agriculture, Environment and Rural Affairs**.

### Key objectives

The Rural Micro Capital Grant Scheme 2022 has been designed to:

- Help rural community-led, voluntary groups to address local issues of **access poverty**, **financial poverty** and **social isolation**;
- Improve the lives of rural communities, and in particular the **wellbeing of isolated individuals**; and,
- In line with the draft **Green Growth Strategy for Northern Ireland** provide opportunity to community-led, voluntary groups to implement energy efficiency measures / environmental improvements.

## The Grant Scheme

Micro Capital grants **between £200 and £1,500** are available to rural community-led, voluntary organisations for projects tackling issues of local poverty and / or social isolation, and / or implementing energy efficiency measures / environmental improvements. Projects must focus on one of the following four themes:

- **Modernisation (of building(s) / assets)**
- **Information Communication Technology (ICT)**
- **Health and Wellbeing**
- **Energy Efficiency / Environmental Improvement. NB: Please note environmental improvements - 100 % gardening equipment – tunnel kits, the raised beds, pots, spades, hoes etc. with 15% of the project providing opportunity to purchase plants, trees, hedges, flowers etc. (Plants / Shrubs / flowers must be perennial)**

The Rural Micro Capital Grant Scheme can offer grant aid from 50% up to 85% of the total eligible cost of your project. **NB:** The total project cost must not exceed £3,000. Match funding for your contribution of at least 15% must be in the form of a 'cash' contribution. Labour or 'in-kind' contributions will not be accepted.

In order to ensure that as many groups as possible get the opportunity to benefit from this Scheme, organisations can only make **one** application to the Scheme.

### ***What can be funded?***

Grant aid can only be used to meet costs associated with capital equipment, the improvement of a capital asset and / or the extension of the useable life of a capital asset. Groups can apply for a wide range of capital items, such as office equipment, furniture, sports goods, kitchen fittings and minor capital works to improve premises. **NB:** Please note that clothing and consumables e.g. ink, paper, etc. are ineligible

Eligible items **must** clearly relate to the key themes of (i) Modernisation\*, (ii) ICT, (iii) Health & Wellbeing, or (iv) Implement energy efficiency / environmental improvements measures.

In recognizing the impact of Covid 19, and the need for investment to reopen and safely operate venues, eligible costs may include structural alterations, e.g. ventilation systems for rooms without windows; heating rooms previously unused rooms to provide more space; removing walls to improve space and improve distancing. Furthermore, goods which have a degree of permanence (anticipated to have a life beyond 1 year) or can be permanently affixed to the venue can also be considered eligible. This would allow items including sanitiser stations, perspex screens, signage, floor markings, refillable spray bottles, automatic doors, replacement furniture that can be wiped down and contactless thermometers.

**To encourage local communities to implement energy efficiency / environmental improvements.**

Eligible costs may include, e.g., draft proofing, double glazed windows, change of lighting to LED, light sensors/timers, insulation, replace kettles with a water boiler.

**Environmental improvements.** Eligible costs may include the purchase of gardening equipment, e.g., tunnel kits, pots, spades, hoes and raised beds. Maximum of 15% of the overall project costs may be used to purchase plants, trees, hedges, flowers etc. (Plants / shrubs / flowers must be perennial, i.e., plants that live multiple seasons).

As this is a capital programme, the following types of activity **cannot** be funded.

## Annex 3

**Tackling Rural Poverty and Social Isolation Framework –  
Draft Green Growth Strategy for Northern Ireland**

The Tackling Rural Poverty and Social Isolation Framework focuses on three Priority Areas for Intervention, namely Access Poverty, Financial Poverty and Social Isolation, and aims to support measures designed to address these priorities in rural areas. It is recognised that there is potential for significant overlap between the three priority areas and that individual measures may address more than one priority area.

- **Access Poverty** - this priority aims to improve access to key services for vulnerable rural dwellers by supporting interventions which;
  - Improve urban-rural linkages (e.g. through the provision of better transport and broadband services etc.);
  - Improve access to key services (e.g. healthcare, education and training, leisure facilities, library services, advice services, childcare etc.).
- **Financial Poverty** – this priority aims to address financial poverty among vulnerable rural dwellers by supporting interventions which:
  - reduce household expenditure or other living costs (e.g. transport costs);
  - increase household incomes; (e.g. through improved employability, employment opportunities, entrepreneurship, increased benefit uptake etc.);
  - address issues relating to the additional costs faced by people living in rural areas (e.g. fuel costs);
  - address the barriers to escaping financial poverty (e.g. low qualifications, low skills, lack of access to affordable childcare, lack of access to quality jobs, disengagement, lack of access to information and advice, poor health etc.);
  - help alleviate the effects of financial poverty (e.g. food poverty, health problems, obesity among children, debt etc.).
- **Social Isolation** – this priority aims to address social isolation among vulnerable rural dwellers by supporting interventions which:
  - promote positive mental health and wellbeing;
  - increase opportunities for social engagement (e.g. social activities, sport and leisure activities, cultural activities etc.);
  - provide support to groups at risk of social isolation (e.g. farmers, older people, people with disabilities, disengaged youth, etc.).

**Draft Green Growth Strategy for Northern Ireland**

This draft Strategy establishes Government's Green Growth vision and principles and sets out its commitments to tackling the climate crisis. Already, Northern Ireland has taken significant action for the climate and our environment, has placed nature and biodiversity on a path to recovery, and moved from a high to a low emissions society.

Green Growth means recognising and accepting the impact we have on our planet and doing something about it.

Green Growth is about more than just climate targets. It also considers the wider environment as well as green jobs. Northern Ireland's environment is one of its most important assets. Clean air, good quality water and the green and blue spaces are part of our 'natural capital'. The RMCGS 2022 has added the Theme to provide the opportunity to community-led groups to consider going green and become more sustainable.
